

Capital Health Network Limited

Election of Directors 2022

Candidate Statement

Candidate name (please print):	Julie Blackburn	
Tick the Director Position being nominated for:	B2 <input checked="" type="checkbox"/>	B3 <input type="checkbox"/>

Statement in support of nomination

I am an active and enthusiastic Registered Nurse, Registered Midwife and Company Director. I am current in all three roles through employment at the University of Canberra, Calvary Health Care Bruce, and appointments to the Board of Directors of the Capital Health Network, and Karralika Programs Inc. I have direct experience in reporting to Ministers at both local and federal levels, including as a member of the ACT Ministerial Advisory Council for Women.

I have extensive experience in advocacy, health promotion, clinical education, governance oversight and policy review and development. I have a demonstrated history of providing strong leadership and effective contribution to strategic thinking and direction particularly with respect to health, wellbeing and primary health care services. I influence change through direct intervention: through contact with clients and professionals via midwifery and nursing; developing facilitating programs for clients and professionals to improve health and wellbeing of families; and via Board and Ministerial appointments contributing to the shaping of policy and government decision making.

Ten years' experience as a Non-executive Director, including two years as Chair of the Capital Health Network, and more than 25 years of professional qualifications and experiences relating to Health, have provided me with the required skills and requisites that are necessary for continuing my appointment to support the Capital Health Network achieve and exceed our strategic goals.
