

Support Services: Early connections in your dementia journey

CHN

**A guide to local dementia care
and support services in the ACT**

**To access this resource
digitally [click here](#)
or scan the QR code**

The need for information and assistance can arise at any time.

This guide has been developed to assist you and your family understand local dementia care and support services available in the ACT.

The list of services provided in this guide are not exhaustive and there may be services missing that you will find helpful. We chose the services listed based on discussions we have had with health professionals and dementia and advocacy organisations. We hope you find it useful.

How to use this guide

This guide was designed to be a resource that you can come back to throughout your dementia journey. Each service listed has a check box so that you and your family or your GP can tick the services you would like to contact. There are also lots of 'useful tips' highlighted throughout the guide. From page 46 you will find space to list your medications, contact details for appointments and specialists and information about your dementia care plan.

Background

A diagnosis of dementia can bring a mix of emotions to you and your family. Early diagnosis is important to allow you to live better by managing your symptoms, access a range of health and support services and plan for the future. Capital Health Network has been funded by the Department of Health and Aged Care to develop this guide. We hope it is useful to help you and your family.

The contents of this resource were guided by consultations with people living with dementia, their carers and health professionals. This resource maps local care and support services that can assist you and your family in your dementia journey.

This information is current as at March 2023.

Medications list

Useful tip:

You can access medication lists online to keep track of what medicines you are taking, when to take them and what they are for. This list from NPS MedicineWise can be printed to go on your fridge.
