

- ! With global warming and the Bureau of Meteorology raising an El Niño alert in Australia, we are expecting to have a hot and dry summer with the strong possibility of bushfires. This QulK Tip is to help prepare you and your practice for summer and to be able to respond to any potential emergencies.

1. Prepare your practice

General practices play a key role in informing patients and responding to health concerns of the community. It is important to ensure your practice has an up-to-date emergency plan including a process to communicate any practice closures to your patients.

- [Appoint a designated staff member](#) who can update your website and/or send notifications to your patients.
- [Contact Capital Health Network \(CHN\)](#) at 6287 8099 or email primarycare@chnact.org.au for us to communicate your practice status with Canberra Health Services.

These resources can assist your practice in creating an emergency plan:

- [Managing Emergencies in General Practice 2017](#) – RACGP
- [Summer Planning Toolkit Modules 2022](#) – RACGP
- [Emergency Response Planning Tool](#) – RACGP

2. Review relevant HealthPathways

- [Preparing a General Practice for a Disaster](#)
- [Preparing Patients for a Disaster](#)
- [Burn Injuries](#)
- [Heat-related Illness](#)
- [Post Natural Disaster Health](#)
- [General Practice Management During a Disaster](#) – coming soon
- Username: together Password: forhealth

3. Review your digital health capability and infrastructure

- [CHN Digital Health QulK Step](#)
- [Australian Digital Health Agency](#)
- [My Health Record](#)

4. Identify your vulnerable patients

Identifying your vulnerable patients will assist you to develop emergency action plans with them and prioritise care. Your CAT4 software is an essential audit tool that can identify and group your patients; 'recipes' are available on the [PenCS website](#) to help you filter your patient list.

5. Prepare your patients

It is important to educate patients, particularly those who are vulnerable, on how to prepare for a potential emergency. The following resources might be helpful:

- [Air Quality Health Advice Portal](#) – ACT Health
- [Asthma, Hay Fever and the ACT Pollen Season](#) – ACT Health
- [Avoiding Heat-Related Stress](#) – ACT Health
- [First Aid for Asthma Charts](#) – National Asthma Council (NAC)
- [Home Emergency Kit](#) – ACT Emergency Services Agency
- [Plan for Natural Disasters and Emergencies](#) – NDSS
- [Summer Safety](#) – ACT Health

6. Relevant health resources

Here are a few resources to assist you and your patients in preventing and managing health issues that may arise over the summer season.

- [Bushfires and Asthma Factsheet](#) – NAC
- [Bushfires in Australia Factsheet](#) – RACGP
- [Bushfires and Your Health Online Course](#) – UTAS
- [Diabetes and Other Chronic Conditions in Natural Disasters and Emergencies](#) – NDSS
- [Emergencies and Extreme Weather Factsheets](#) – ACT Health
- [How to Protect Yourself and Others from Bushfire Smoke](#) – ANU
- [Mental Health in Emergencies and Disasters](#) – RACGP
- [Preventing Thunderstorm Asthma in Individuals](#) – NAC
- [Sun Safety](#) – Cancer Council Australia
- [Thunderstorm Asthma Factsheet](#) – RACGP

7. Stay up to date

- [AirRater App](#)
- [Air Quality in the ACT](#) – ACT Health
- [Canberra Forecast](#) – Bureau of Meteorology
- [Chief Health Officer Alerts](#) – ACT Health
- [Fires Near Me](#) – NSW Rural Fire Service
- [Incident Updates](#) – ACT Emergency Services Agency
- [Pollen Count Canberra](#) – ANU
- [Ultraviolet Radiation Index](#) – ARPANSA

8. Staff support and wellbeing

- [AccessEAP](#) – Free counselling provided by CHN for those working in general practices, pharmacies and allied health settings.
- [Self-care and Mental Health Resources](#) – RACGP
- [TEN – The Essential Network for Health Professionals](#) – Black Dog Institute
