## CF-COVID-VVP - 1 - COVID-19 Vaccination for Vulnerable Populations

### Activity Metadata

#### Applicable Schedule \*

Core Funding

#### Activity Prefix \*

CF-COVID-VVP

#### Activity Number \*

1

#### Activity Title \*

COVID-19 Vaccination for Vulnerable Populations

#### Existing, Modified or New Activity \*

Existing

### Activity Priorities and Description

#### Program Key Priority Area \*

Population Health

#### Other Program Key Priority Area Description

#### Aim of Activity \*

This activity aims to ensure access to COVID-19 vaccinations for at-risk groups.

#### Description of Activity \*

This activity will support vaccination efforts through specific in-reach, promotion, and support for:

- those who are experiencing homelessness
- people with disability or are frail and cannot leave home
- culturally, ethnically and linguistically diverse people
- those who are not eligible for Medicare and/or live in an area without access to a state, territory or Commonwealth Vaccination Clinic;
- aged care and disability workers.
- Residential Aged Care Facilities

This activity will support vaccination efforts through specific in-reach, promotion, and support for:

- those who are experiencing homelessness
- people with disability or are frail and cannot leave home
- culturally, ethnically and linguistically diverse people
- those who are not eligible for Medicare and/or live in an area without access to a state, territory or Commonwealth Vaccination

Clinic;  
-aged care and disability workers

The activity has been expanded and not limited to in-reach locations. General Practices and Pharmacy provides support and facilitate vaccinations to vulnerable population groups listed above.

## WIP-PS - 6 - Workforce Incentive Program - Practice Stream

### Activity Metadata

**Applicable Schedule \***

Core Funding

**Activity Prefix \***

WIP-PS

**Activity Number \***

6

**Activity Title \***

Workforce Incentive Program - Practice Stream

**Existing, Modified or New Activity \***

New Activity

### Activity Priorities and Description

**Program Key Priority Area \***

Workforce

**Other Program Key Priority Area Description****Aim of Activity \***

Understand current utilisation of WIP-PS in the region;  
Identify and provide additional support to practices addressing gaps in WIP-PS knowledge;  
Identify different models of multidisciplinary care supported by the WIP-PS to address community needs, and the key factors that enable or inhibit these models and share learnings;  
Identify the range of activities nurses and allied health professionals undertake in primary care supported by the WIP-PS;  
Increase general practice participation in WIP-PS;  
Improve patient outcomes by improved access to multidisciplinary care in communities;  
Identify best practice models of care supported by WIP-PS; and  
Have general practices providing sustainable, quality multidisciplinary team care.

**Description of Activity \***

To understand and support the uptake of WIP-PS in the ACT, ACT PHN will:

- Identify general practices that are currently not receiving the WIP-PS. Of these general practices those currently employing WIP-PS eligible primary health care professionals will be prioritised for direct engagement to discuss and encourage uptake of the incentive. Other general practices not receiving the WIP-PS will then receive direct engagement to discuss the incentive and to encourage uptake.
- Support to participate in WIP-PS will be offered to general practices through direct engagement with the Quality Improvement

team, development of a step-by-step guide/resource and educational events, if required

- Direct engagement with all general practices receiving WIP-PS to understand the primary health care professionals supported by WIP-PS at each practice, their model of care as well as any challenges and/or good news stories. Through this activity CHN will identify general practices with successful models of care and share their learnings through our various communication channels.
- Develop an information resource on all Practice Incentive Payments including the WIP-PS for use by general practices to reduce any gaps in knowledge about the incentive.
- Active collaboration with PHN Cooperative to share best practices, success stories and lessons learned.

## CMDT - 7 - Commissioning of Multidisciplinary Teams

### Activity Metadata

#### Applicable Schedule \*

Core Funding

#### Activity Prefix \*

CMDT

#### Activity Number \*

7

#### Activity Title \*

Commissioning of Multidisciplinary Teams

#### Existing, Modified or New Activity \*

New Activity

### Activity Priorities and Description

#### Program Key Priority Area \*

Population Health

#### Other Program Key Priority Area Description

#### Aim of Activity \*

Design an approach for multidisciplinary team services based on:

- Identification of, and consultation with, small or solo general practices or Aboriginal Community Controlled Health Services that are unable to engage a multidisciplinary team through other funding streams, and
  - a. Identification and prioritisation of areas of need in underserved or financially disadvantaged communities (such as treating chronic conditions and injuries, coordinating care for priority patients, mobilising social supports for at risk patients)
  - b. successfully commission multidisciplinary teams that address the prioritised need in the region
  - c. extend PHNs existing role in general practice to support to private allied health, nursing and/or midwifery practices
  - d. establish reporting processes supported by data collection and data management practices, including both activity and outcome measures
  - e. monitor implementation of the activity, utilising relevant outcome measures, and develop adjustments to the approach if required.

#### Description of Activity \*

CHN will identify eligible practices across the Canberra region and co-design a multidisciplinary approach to manage Diabetes. CHN will utilise data to support understanding of the practice needs and commission Multidisciplinary team to support practices identified. CHN will additionally work with Allied Health peak body to determine health outcome measures.

8

**Activity Title \***

MyMedicare

**Existing, Modified or New Activity \***

New Activity

### Activity Priorities and Description

**Program Key Priority Area \***

Population Health

**Other Program Key Priority Area Description****Aim of Activity \***

- See an increase in general practice accreditation
- See improvements in safety and quality in health care, and
- See improved access of general practice to Commonwealth funded programs such as MyMedicare.

**Description of Activity \***

ACT PHN supports general practices to maintain or achieve accreditation through:

- Upskilling of Quality Improvement team members and regular engagement with accreditation agencies to enable them to provide specific support on accreditation to general practices.
- Development of a fact sheet on accreditation for unaccredited general practices. A detailed MyMedicare webpage on the CHN website.
- Identifying general practices currently unaccredited and engaging with them directly to discuss accreditation, promote the benefits and understand their barriers to participation. Support will be provided by the Quality Improvement team to practices as required.
- Direct engagement with each accredited general practice discussing and promoting accreditation and MyMedicare and offering support if required.
- Active collaboration with NINCo and MyMedicare PHN Cooperative in sharing and localising resources.
- Regular newsletter articles promoting MyMedicare and aspects of accreditation.

## GPACI-GPM - 9 - General Practice in Aged Care Incentive - GP Matching

### Activity Metadata

**Applicable Schedule \***

Core Funding

**Activity Prefix \***

GPACI-GPM

**Activity Number \***

9

**Activity Title \***

General Practice in Aged Care Incentive - GP Matching

**Existing, Modified or New Activity \***

New Activity

### Activity Priorities and Description

**Program Key Priority Area \***

Aged Care

**Other Program Key Priority Area Description****Aim of Activity \***

To enhance relationships between general practices and RACHs.

**Description of Activity \***

Map existing relationships and gaps between GPs and RACHs in the ACT. Support RACHs to understand the GPACI and how to support their residents to access and benefit from this by providing information and in-reach support.

Work with ACCHs, General Practices and GPs to support their understanding of GPACI and opportunities to commence or expand provision of care in RACH settings.

Educate general practices and GPs participating in GPACI on the application of the best practice guidelines .

Identify general practices and GPs wishing to participate in GPACI and support them with registration to MyMedicare and GPACI.

Provide GP matching for RACHs with new or existing residents in need of a new GP where there is not a suitable option available.

Support formalising relationships between RACH and GPs to create/improve effective working relationships, inductions for new GPs to RACH and build sustainable partnerships between the stakeholders.

## CF - 2 - In-reach services for priority populations

### Activity Metadata

**Applicable Schedule \***

Core Funding

**Activity Prefix \***

CF

**Activity Number \***

2

**Activity Title \***

In-reach services for priority populations

**Existing, Modified or New Activity \***

Existing

### Activity Priorities and Description

**Program Key Priority Area \***

Other (please provide details)

**Other Program Key Priority Area Description**

At-risk populations

**Aim of Activity \***

The aim of this activity is to provide access and links to primary health care services for vulnerable people who are often characterised by poor access and low engagement with primary health care services.

**Description of Activity \***

In/out reach services are those that are delivered directly to the targeted community and may be effective in linking vulnerable groups to mainstream health care.

The core elements of an 'in reach' service are:

- 'in-reach' to a place that is already frequented by the target group on a regular basis and that is considered trustworthy, safe and non-threatening by the client group
- filling a void i.e. adding value and not duplicating similar services
- acting as a first access point for vulnerable people who do not have access to a trusted primary care home in the ACT
- facilitation of client transition back into mainstream general practice, in the local area.

### Activity Priorities and Description

#### Program Key Priority Area \*

Workforce

#### Other Program Key Priority Area Description

#### Aim of Activity \*

The aim of this activity is to support primary health care providers to deliver high quality care; build capacity and capability within general practice, improve integration of care, and foster the development of sustainable workforce and service delivery models to meet the future demand for primary health services.

#### Description of Activity \*

Through a partnership with the Academic Unit of General Practice, ACT PHN will have delivered to programs to support early career GPs including:

- Peer support networks: ACT PHN has supported the facilitation of peer support networks for early career GPs. The networks were led by mid and late-career GPs that are trained to appropriately facilitate the groups.

- GP scholarships prize: Identified promising medical students interested in General Practice and paired them up with mentorship and professional development opportunities.

Funding in this stream will be used to continue to support workforce development capacity in primary care and scope of practice.

## CF - 4 - Innovative Primary Care Workforce Models

### Activity Metadata

**Applicable Schedule \***

Core Funding

**Activity Prefix \***

CF

**Activity Number \***

4

**Activity Title \***

Innovative Primary Care Workforce Models

**Existing, Modified or New Activity \***

Existing

### Activity Priorities and Description

**Program Key Priority Area \***

Workforce

**Other Program Key Priority Area Description****Aim of Activity \***

Commission targeted innovative models of care to address specific gaps in service, emerging needs, and health priorities.

**Description of Activity \***

Capital Health Network has identified an integrated and multidisciplinary care model in the community to address the gap in support for people with complex social and health needs, low levels of health literacy, and understanding of how to access appropriate care. ACT PHN's social workers in general practice pilot will be delivered and evaluated through the After Hours funding until 31 December 2023 to measure the impact of the program on patients, practices, and the broader health system. The program was extended to run until 31 March 2025. Continuation of this innovative model of care will incorporate the findings from the evaluation to further support people in navigating appropriate services. It will assist in further following up and supporting people who may unnecessarily access the ED and the social workers will also provide direct client services aligning with General Practice multidisciplinary team-based approach. Learnings from this pilot will be used to support sustainable approach for the model and ability to expand pilot to other General Practices.

The aim of this activity is to support primary health care providers to deliver high quality care; build capacity and capability within general practice, improve integration of care, and foster the development of sustainable workforce and service delivery models to meet the future demand for primary health services.

**Description of Activity \***

ACT PHN undertakes a collaborative approach to supporting local primary care providers and building their capacity to provide evidence-based care. This includes a focus on quality improvement and supporting high-performing primary care through:

- Data-driven quality improvement projects
- Supporting the workforce through a range of initiatives including continuing professional development, interdisciplinary education opportunities, early career supports, and ongoing professional networking opportunities.
- Providing resources and information about business processes such as accreditation and digital health.

The activities delivered alongside general practice support their engagement in the QI PIP and ensure they are meeting their QI requirements.

**Other Program Key Priority Area Description****Aim of Activity \***

The aim of this activity is to undertake planning and data analysis activities including population health data analysis, consultation, and policy analysis to identify community health needs and effective solutions.

**Description of Activity \***

ACT PHN aims to improve the health and wellbeing of people in the ACT while addressing inequities among and between specific population groups and the needs of the most disadvantaged. It is used to identify health needs, risk and protective factors, service gaps and the effects of targeted interventions.

- Source and analyse data to provide information about the health status of the ACT population with a focus on primary health care and to identify the key health issues/needs and problems
- Identify the population groups or localities most affected and identify the social determinants at play and/or the health inequities present
- Assess the adequacy of present efforts to meet current and future needs
- Identify gaps in programs and services and opportunities to improve coordination and collaboration with general practice, other primary health care providers, and the acute sector.
- Develop innovative workforce models that improve the delivery of primary care
- Plan for primary health care services
- Monitor and evaluate contracted services to determine progress towards achieving expected outcomes.

Population Health

**Other Program Key Priority Area Description****Aim of Activity \***

This activity aims to enable better system integration across primary, secondary and tertiary care.

**Description of Activity \***

Under this activity, ACT PHN will undertake a range of initiatives in collaboration with key health systems partners such as ACT Health, Canberra Health Services, and Calvary Hospital.

-Supporting integrated models of care. Initially, these activities will focus on mental health, Indigenous health, and digital health.

-Collaborative commissioning with ACT Health.

-Enabling the uptake of digital health tools.

- Establishment of CHN Data Governance Council and Data Governance Framework which will inform and guide how the organisation will improve data skills, implement security controls, and improve the use of customer relationship management and data storage systems.

### Activity Priorities and Description

**Program Key Priority Area \***

Population Health

**Other Program Key Priority Area Description****Aim of Activity \***

The overarching aim of HealthPathways is to enable a more connected health system that delivers the right health care to the right patient at the right time by:

- improving systems to support efficient and effective patient management across the whole health sector.
- improving referrals and transition of care pathways between health care providers

**Description of Activity \***

This activity involves the development and promotion of integrated patient care pathways through HealthPathways. The activity is supported by a high-level governance committee made up of major stakeholders and has a team composed of a cross border program manager, project coordinators, administrative supports, GP clinical editors and two GP clinical leads.

The HealthPathways activity produces an online tool for primary health care teams, to help guide patient assessment and management and appropriate referral to local specialist and allied health and community services.

Key activities include

- Consultation and co-design of pathways with SMEs, GPs, and stakeholders including consumers.
- Development and promotion of pathways that:
  - o Support high quality clinical care in the community
  - o Support transition from hospital/specialist services back to primary care

- o Support high quality referrals to specialist care
- Development of Indigenous health pathways that promote information and resources to support culturally appropriate care
- Development of pathways that promote information and resources for CALD communities.
- Embedding health literacy concepts within HealthPathways

### Activity Priorities and Description

**Program Key Priority Area \***

Population Health

**Other Program Key Priority Area Description****Aim of Activity \***

The primary aim of this Activity is to develop and review clinical and referral dementia care support pathways for primary health care professionals that reflect best practice on the ACT & SNSW HealthPathways platform. The secondary aims of this activity are to engage in collaborative activities across the PHN regions and with Dementia Australia in the development and sharing of dementia specific support pathways information, consult local primary care providers on the provision of dementia care within the ACT region and encourage the engagement with HealthPathways and usage of the dementia support pathways.

**Description of Activity \***

Allocate a dedicated GP clinical editor to review and develop relevant clinical dementia support pathways on the ACT & SNSW HealthPathways site. The dedicated GP clinical editor will work in collaboration with PHNs participating in the Activity to share dementia support pathways information

Consult with local primary health care professionals in an effort to gain further understanding of the provision of dementia care within primary health care settings in the ACT.

Consult with local primary health care professionals in an effort to identify barriers in the provision of dementia care and their informational needs when supporting patients living with dementia and their carers.

Continually review the relevant dementia support referral pathways in collaboration with local health care providers, dementia support groups and community services.

Partner with Dementia Australia and local ACT representatives to ensure dementia support and referral pathways reflect appropriate services and supports and consult with consumers living with dementia and/or their carers/family in an effort to gain further understanding of their experiences in the ACT health system and how their care could have been improved.

Engage in communication strategies to promote the awareness and usage of the developed/reviewed dementia support pathways on HealthPathways.

Support educational opportunities for health care professionals within the ACT for the provision of dementia care and the support of carers.

HSI

**Activity Number \***

7

**Activity Title \***

Aged Care Clinical Referral Pathways

**Existing, Modified or New Activity \***

New Activity

### Activity Priorities and Description

**Program Key Priority Area \***

Population Health

**Other Program Key Priority Area Description****Aim of Activity \***

The primary aim of this Activity is to review and develop clinical and referral aged care support pathways for primary health care professionals that reflect best practice on the ACT & SNSW HealthPathways platform. The secondary aims of this Activity are to support initiatives being undertaken by the ACT PHN under the Aged Care Funding such as, Telehealth, early intervention initiatives to support healthy ageing, the ongoing management of chronic conditions and the Care Finder Program

**Description of Activity \***

HealthPathways GP clinical editor/s to review and/or develop clinical pathways for Older Adults informed by local needs, clinical gaps on the HealthPathways platform and the direction provided within the Aged Care Funding Policy Guidance.

Continually review the relevant aged care referral support pathways in collaboration with local health care providers, aged care support groups and community services.

Engage in communication strategies to promote the awareness and usage of the developed/reviewed aged care support pathways on the HealthPathways platform.

Review and/or develop clinical and referral support pathways as required on the HealthPathways platform to support best practice care for chronic conditions.

Update clinical and referral support pathways as required on the HealthPathways platform to support best practice care for carer stress and support.

The ACT & NSW HealthPathways program is the lead region for the Telehealth pathway to support the usage and understanding of Telehealth with HealthPathways users and lead the maintenance of this pathway for HealthPathways programs across the ACT and NSW regions. Support the implementation of the Care Finder Program by providing the relevant information of the HealthPathways platform and engaging in communication strategies to promote the awareness and referral to the commissioned service providers.

### Activity Priorities and Description

**Program Key Priority Area \***

Population Health

**Other Program Key Priority Area Description****Aim of Activity \***

The HealthPathways team within the ACT PHN will map local dementia care and support services for the ACT region in consultation with people living with dementia and their carers and in collaboration with relevant support services in order to develop dementia resources for people living with dementia and their carers.

**Description of Activity \***

'Map local dementia care and support services reflected on the HealthPathways referral support pathways into consumer resources appropriate to people living with dementia and their carers.

Partner with Dementia Australia to consult with dementia advocates, people living with dementia and their carers about their experiences in the ACT health system, their informational needs, and the appropriateness/usefulness of the developed consumer resources.

Collaborate with local health care providers, dementia support services, advocacy organisations and community services to provide accurate information on their services within the developed consumer resources.

Consult with Dementia Australia (ACT) and Health Care Consumers' Council (HCCA) employees as representative bodies on the informational needs of consumers and carers and the appropriateness/usefulness of the developed consumer resources.

Engage in communication strategies to promote the awareness and usage of the developed dementia support consumer resources.
